EDUCATION

Tulane University, New Orleans, LA, USA

- Ph.D. in Biomedical Engineering   Aug 2020 – Dec 2024
  - Thesis: Creation of Algorithms and Tools for the Study of Brain Development with the Identification of Confounds
  - Advisor: Dr. Yu-Ping Wang
  - Focus: Interpretable deep learning, multi-modal brain imaging, brain network analysis, neuroimaging software development, multi-omics
  - Cumulative GPA: 3.98 / 4.0

Illinois Institute of Technology, Chicago, IL, USA

- B.S. in Electrical and Computer Engineering (Dual Degree)   Aug 2006 – Dec 2010
  - Graduated Cum Laude
  - Cumulative GPA: 3.70 / 4.0
  - Major GPA: 3.87 / 4.0 (CPE), 3.82 / 4.0 (EE)

WORK EXPERIENCE

Yale School of Public Health, New Haven, CT, USA

- Postdoctoral Associate   Feb 2025 – Present
  - Performed massive multi-dimensional and multi-source data analyses on brain imaging and multiomics data
  - Developed effective analytical methods with applications to mental health and aging

Tulane University, New Orleans, LA, USA

- Teaching Assistant   Aug 2022 – Dec 2024
  - Helped teach data science in medical imaging class for graduate students
  - Graded assignments and assisted students with MATLAB programming projects and mathematical derivations

Community College of Allegheny County, Pittsburgh, PA, USA

- Adjunct faculty in Computer Information Technology department   Jan 2018 – Jul 2020
  - Taught introductory programming courses using the Java language
  - Taught web development technologies including HTML 5, JavaScript, and CSS
- Chemistry, physics, and computer programming tutor   Aug 2015 – Jul 2021
  - Tutored students in general and organic chemistry, physics, and computer programming
  - Aided students in programming in Java, C, C++, and assembly language
  - Prepared students for exams and helped with labs, projects, and assignments

Motorola, Inc., Schaumburg, IL, USA

- Student Intern   Jan 2010 – Dec 2010
  - Designed coverage for complex two-way radio systems
  - Minimized costs of countywide simulcast designs
  - Optimized channel utilization for countywide systems using frequency reuse planning

RESEARCH EXPERIENCE

Tulane University, New Orleans, LA, USA

- Research Assistant   Aug 2020 – Dec 2024
  - Developed machine learning algorithms and software using fMRI/omics for prediction of subject phenotypes
  - Created Latent Similarity model that is superior at the low sample sizes found in many fMRI dataset
  - Wrote ImageNomer software package to quickly analyze fMRI/omics datasets and identify trends/confounders in data
  - Identified changes in functional connectivity that occur with normal aging in the UK Biobank longitudinal cohort
  - Created novel generative model for disentangling demographics from functional connectivity/omics
  - Distributed machine learning models and software via GitHub, Docker, and pip repositories

Illinois Instiute of Technology, Chicago, IL, USA

- Undergraduate Researcher   2008 – 2010
  - Created software processing pipelines for MRI diffusion tensor imaging data
  - Identified novel alterations in DTI fractional anisotropy of uncinate fasciculus in social phobia patients
  - Helped develop a state of the art diffusion tensor atlas of the human brain

SPIE 12036, Medical Imaging 2022: Biomedical Applications in Molecular, Structural, and Functional Imaging, 1203612 (4 April 2022); San Diego, CA, USA.

PRESENTATIONS

- Tulane Research, Innovation, and Creativity Summit   Apr 2024
  Presented work on demographic-conditioned variational autoencoder for fMRI data

- MidSouth Computational Biology and Bioinformatics Society   Mar 2024
  Presented work on data augmentations for contrastive learning of functional connectomes

- SPIE: Medical Imaging 2023   Feb 2023
  Presented work on ImageNomer connectome/omics analysis software and identification of confounds

- SPIE: Medical Imaging 2022   Feb 2022
  Presented work on phenotype-guided interprettable graph convolutional network model for analysis of fMRI

SERVICE TO PROFESSION

- Reviewer for IEEE Transactions on Medical Imaging
- Reviewer for Frontiers in Aging Neuroscience
- Reviewer for Imaging Neuroscience
- Reviewer for SPIE Journal of Electronic Imaging
- Reviewer for SPIE Optical Engineering

SKILLS

- Programming: Python, PyTorch, MATLAB, C/C++/Java, Go, SQL, JavaScript, HTML, PHP, R

- Database: MySQL, MariaDB
- Other: Git, Docker, pip, Flask, Vue, HTMX, LaTeX

AWARDS & SCHOLARSHIPS

- IEEEXtreme 2023 Programming Competition Region Winner — Oct 2023
  Reached rank 1 in IEEE Region 5 in the IEEEXtreme 17.0 24-hour programming competition. Scored in the top 15% of teams overall.
- SPIE: Medical Imaging Student Travel Award — Dec 2022
  Monetary award for travel to present the "ImageNomer" paper at SPIE: MI 2023 in San Diego.
- Research Experience for Undergraduates Award — Jun 2009 – Aug 2009
  Paid stipend for summer research based on previous work at the IIT MRI lab.
- Marvin Camras Scholarship, Illinois Institute of Technology — 2006 – 2010
  Full tuition scholarship based on academic merit.
- Eta Kappa Nu Member — 2007
- Tau Beta Pi Member — 2007

PROFESSIONAL AFFILIATIONS & ACTIVITIES

Computer Society Member,
Institute of Electrical and Electronics Engineers

- Graduate Student Member — 2022 – Present

[CV compiled on 2025-04-10]
